keep facts right where you need them with HOMS VISIBLE CARD BOOKS

Here's the handiest, lightest, most convenient filing system ever devised! Truly a finger-tip source of instant information, these Visible Card Books let you quote sales records, stock inventories, prices, names and addresses, telephone numbers, or other information at a moment's notice. You can keep up-to-date records as your information accumulates...save valuable time...increase your efficiency and ability to make better decisions and higher earnings!

You'll find this modern system as efficient as having a private secretary of your own...FREE!

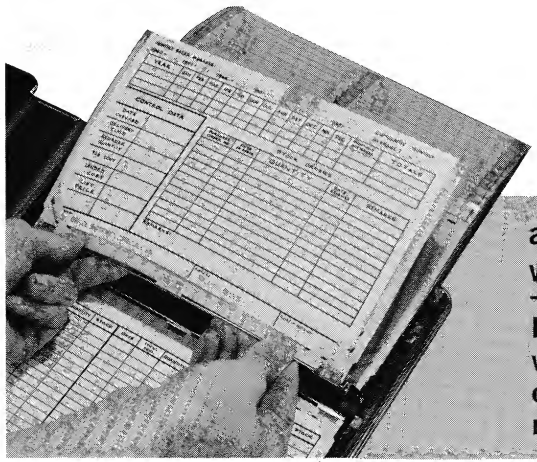
The quality of HOMS Visible Card Books is excellent. They're constructed of hard, smooth fiberboard re-inforced with triple-riveted, chrome plated metal trim around all edges. The rounded corners at the back and front of the covers eliminate scratching and marring of working surfaces when the books are used vertically. They'll give years of daily use and still maintain a neat, clean, business-like appearance. The rich cordovan color looks good in any situation.

The new snap-out grooved plastic slides on each pocket make indexing simple, fast, and efficient...lets you arrange your records, and change them at will, to the most effective, time-saving sequence. Each pocket has space for two cards, front and back, and is die-cut to receive various sizes of cards. The transparent plastic overlap at the bottom of each pocket provides instant identification, and permits the use of colored reference flags.

Start using this modern filing system TODAY... it's an investment in a more efficient and profitable future!

DESIGNED FOR BUSY PEOPLE WHO KNOW THE VALUE OF TIME AND MONEY!

In the office, travelling, or at home... these Visible Card Books provide vital information quickly and accurately. That's why executives and business men find them invaluable time-savers ...doctors, nurses, secretaries, supervisors, clerks, accountants, receptionists, managers, storekeepers, club secretaries, church secretaries, church officers, and others use them constantly for telephone numbers, names and addresses, sales records, and hundreds of other uses!



arrange cards in any order... front or back... with the unique HOMS "snap-out" feature!

No more fumbling and searching for "out-of-order" cards with this fast, easy locking device. You can arrange the order of the pockets to suit your own individual requirements or business demands.
